

# **Arabtec Signs Medical Insurance Deal for 52,000 Employees**

*13 January 2009*

DUBAI - Dubai National Insurance & Reinsurance PSC (DNIR) on Monday announced that it had renewed the medical insurance contract with Arabtec Holdings PJSC to cover their 52,000 employees.

The medical scheme for Dubai's leading construction group is facilitated by Musalla Net in association with Howden Insurance Brokers, said C.R. Jayakumar, General Manager, DNIR.

The signing ceremony of the medical contract held at Arabtec Corporate Office recently was signed by Farouk Sadek, Director of Arabtec LLC, Dr. Sasikumar, Director of Musalla Net, and Arvind Kashyapa, CEO of Howden Insurance Brokers LLC.

He said the medical network encompassed various clinics, hospitals and pharmacies spread over to all emirates in the UAE. "This insurance protection, unlike other traditional medical Schemes, distinctly offers value additions by providing medical care at employees' camps on a regular basis. The scheme further provides life insurance coverage for all members under the scheme. The medical plan is designed to facilitate corporate clients to contain the spiralling medical costs by opting for an alternative cost effective insurance protection," Jayakumar said. DNIR is currently extending similar medical insurance schemes to other corporate groups including 30,000 members of Habtoor Leighton, in addition to Al Habtoor Group, DEPA LLC, GTCC and with Musalla Net Managing the Medical Network facility.
