

GMC Hospital radiology department becomes first private hospital to install CT-Scan in Fujairah

December 03 - 2008

The GMC Hospital Fujairah radiology department became the first private hospital to install CT-Scan facilities for the benefit of patients in and around Fujairah.

The hospital has invested approximately three and half million to provide these facilities and will further upgrade the hospital with other new departments.

The president Mr. Thumbay Moideen along with Dr.Sathya Narayanan C.R, Administrative Medical officer inspected the facilities.

The GMC Hospital Fujairah promoted by Thumbay Group presently is the biggest private healthcare provider in the region in association with Red Crescent Society UAE.

It has added a new Dental unit, Ophthalmology & Dermatology units.

The Hospital will have 24hrs Pharmacy, Laboratory & Radiology services.

The hospital has also introduced THUMBAY Group card and GMC Gold Health Card which offers huge discounts for the patients.

GMC Hospital; Fujairah new block with a capacity of 25 OPD Clinics & 65-bedded full-fledged multi-specialty hospital providing quality care at affordable prices.

The hospital is equipped with various specialty departments & services supported by highly qualified and experienced doctors, technicians and trained nurses.

The new block has the following services operational: Operation Theatres, ICU, Pharmacy, Laboratory, Radiology, Dental, Surgery, Internal Medicine, Pediatrics, General Medicine, 24 hours Emergency, Inpatient Services & Outpatient Services.

The GMC Hospital, Fujairah is supported by GMC Hospital, Ajman that is now approximately 250-bed capacity with more than 80 O.P.D clinics.

GMC Hospital and Research Center is an integral part of Gulf Medical University and is the first private teaching hospital in the UAE promoted by the Thumbay Group.
