

## Kuwait hosts int'l surgery conference -- Dr. Ramadan

**14 December 2008**

KUWAIT, (KUNA) -- Head of the organizing committee for the First International Conference for Surgery, Dr. Abbas Ramadan, said Sunday that the conference coincides with the keenness of Kuwaiti surgeons to keep up with international health developments.

Dr. Ramadan told the press that the conference's activities will be launched on Monday, in reflection of the Ministry of Health's keenness to develop medical services in the country.

He clarified that there are many highly experienced Kuwaiti surgeons in the field of neurology, adding that holding such conferences on an international level would help develop health services in Kuwait, and add to the Kuwaiti surgeon's expertise.

Dr. Ramadan said that the conference would also enlighten Kuwaiti surgeons with recent researches and techniques in the field of medicine.

The conference comes under the patronage of Minister of Health Ali Al-Barrak, and is scheduled to hold for two days with the participation of Arab and foreign experts in the field.
