

# UAE to get French Healthcare Services

20 December 2008

*ExHealth initiates agreement between Day Care surgical hospitals of Sharjah and Paris, setting new trends in Globalization of Healthcare and Medical Tourism*

Sharjah Corniche Hospital, an approaching high-tech healthcare institute and The International Institute of Ambulatory Surgery (IIAmbS), a trend-setter of general and laparoscopic surgery, based in Paris, announced the signing of Memorandum of Understanding recently to form a new entity of encouraging French medical care and services in UAE.

The upcoming Sharjah Corniche Hospital is all set to serve the local community with an international endeavor collaborating with International Institute based in Paris. The competent team of IIAmbS, reputed for day care surgery, has done more than 100,000 Day Surgeries, will execute day surgeries for the local and GCC population as well.

Dr. Mahesh Vidhani, CEO, The Sharjah Corniche Hospital said, "I feel privileged to get an opportunity to serve the people of this region at Sharjah Corniche Hospital. Surgeries wouldn't need to go out of town for a search of talented surgeons. The competent surgeons from IIAmbS will travel all the way from Paris to extend their valuable experience for the patients here".

The Sharjah Corniche Hospital, a state-of-the-art centre, comes up in Buhaira Corniche, Sharjah in a luxurious ambiance of a lagoon. It concludes the elongated endurance of patients by offering outstanding and personalized healthcare services in Sharjah.

It introduces most preferred, most demanded, internationally affiliated Day Care Surgery hospital. The Diagnostic Centre features advanced laboratory and imaging equipments like Open MRI, CT scan, OPG and Mammography.

Dr. Prem Jagyasi, MD and CEO of ExHealth - Dubai HealthCare City, the main force behind combining both the organizations, said, "the GCC patients so far took all the trouble of travelling abroad to avail the healthcare services, now the providers take a trip to lend their helping hands to the people here with international care and know-how."

"I am truly contended to see my dream and efforts come true. It's time for GCC to move to provider market in global health industry. Today we can provide international level healthcare services in GCC keeping pace with the changing phase of healthcare globalization and medical tourism" added Dr. Prem Jagyasi, who is also a leading Medical Tourism Consultant.

World Health Organization valued French surgery as the best in the world, introduced laparoscopic digestive surgery as "the second French revolution" by the end of eighties.

**Professor Hubert Johanet**, President of International Institute for Ambulatory Surgery said, "Today, I feel honoured to get an opportunity to serve the patients of GCC by our skilled surgical team, providing optimal surgery and treatment, using most advanced invention and surgical procedures in the field of Day Care Surgery."

IIAmbS boasts of their best proficient surgical team in the world, to publish the realization of inguinal hernias treatment by using the method of ambulatory laparoscopy. Many French, English, German, Spanish, Italian, Roman, Colombian, Australian, Polish and Chinese surgeons have visited the institute to gain experience in laparoscopy surgery, particularly in plastic surgeries in cooperation with the teams from Munich, Madrid, Berlin and Bordeaux. Reputed for their day care surgery, the competent team of IIAmbS, has done more than 100,000 Day Surgeries.

The team of IIAmbS includes General surgeon, Laparoscopic Surgeon, Bariatric Surgeon, Plastic Surgeon, ENT Surgeon, Orthopedic Surgeon and Urology Surgeon. The team will visit in UAE on regular basis to conduct the surgeries.
